An act to amend Sections 36200 and 36201 of the Public Resources Code, relating to natural resources.

LEGISLATIVE COUNSEL'S DIGEST

AB 947, as introduced, Jackson. Natural resources: California Ocean Resources Management Act of 1990.

Existing law establishes a coordinated program of ocean resources planning and management in order to ensure the conservation and development of ocean resources consistent with the purposes of the California Ocean Resources Management Act of 1990. Existing law provides that the California Ocean Resources Management Plan consists of the Ocean Resources Task Force, the California Ocean Resources Advisory Committee, and a specified report and plan.

This bill would, in conjunction with the coordinated program of resources planning and management, establish a coastal erosion policy. The bill would provide that the California Ocean Resources Management Plan also consists of the State Coastal Sediment Management Task Force and the Coastal Erosion Policy Report, but would not provide for the task force's or the report's creation.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.
